# SourceWeb CopyProof

How to protect the Copyright of your Ideas and Works - professionally and quickly

A REVOLUTIONARY SOLUTION FOR YOUR WORKS

**PROVE YOUR COPYRIGHT WITH OUR BLOCKCHAIN TECHNOLOGY. PROTECT YOUR IDEAS, CONCEPTS, MUSIC, VIDEOS, DOCUMENTS AND OTHER WORKS.**

## What is SourceWeb CopyProof?

SourceWeb CopyProof is an innovative platform that enables artists, authors, photographers and other creatives to protect and secure their intellectual property rights. By using blockchain technology, every file uploaded to SourceWeb CopyProof is stored in a decentralized and immutable database, ensuring its authenticity and integrity.

### How does it work?

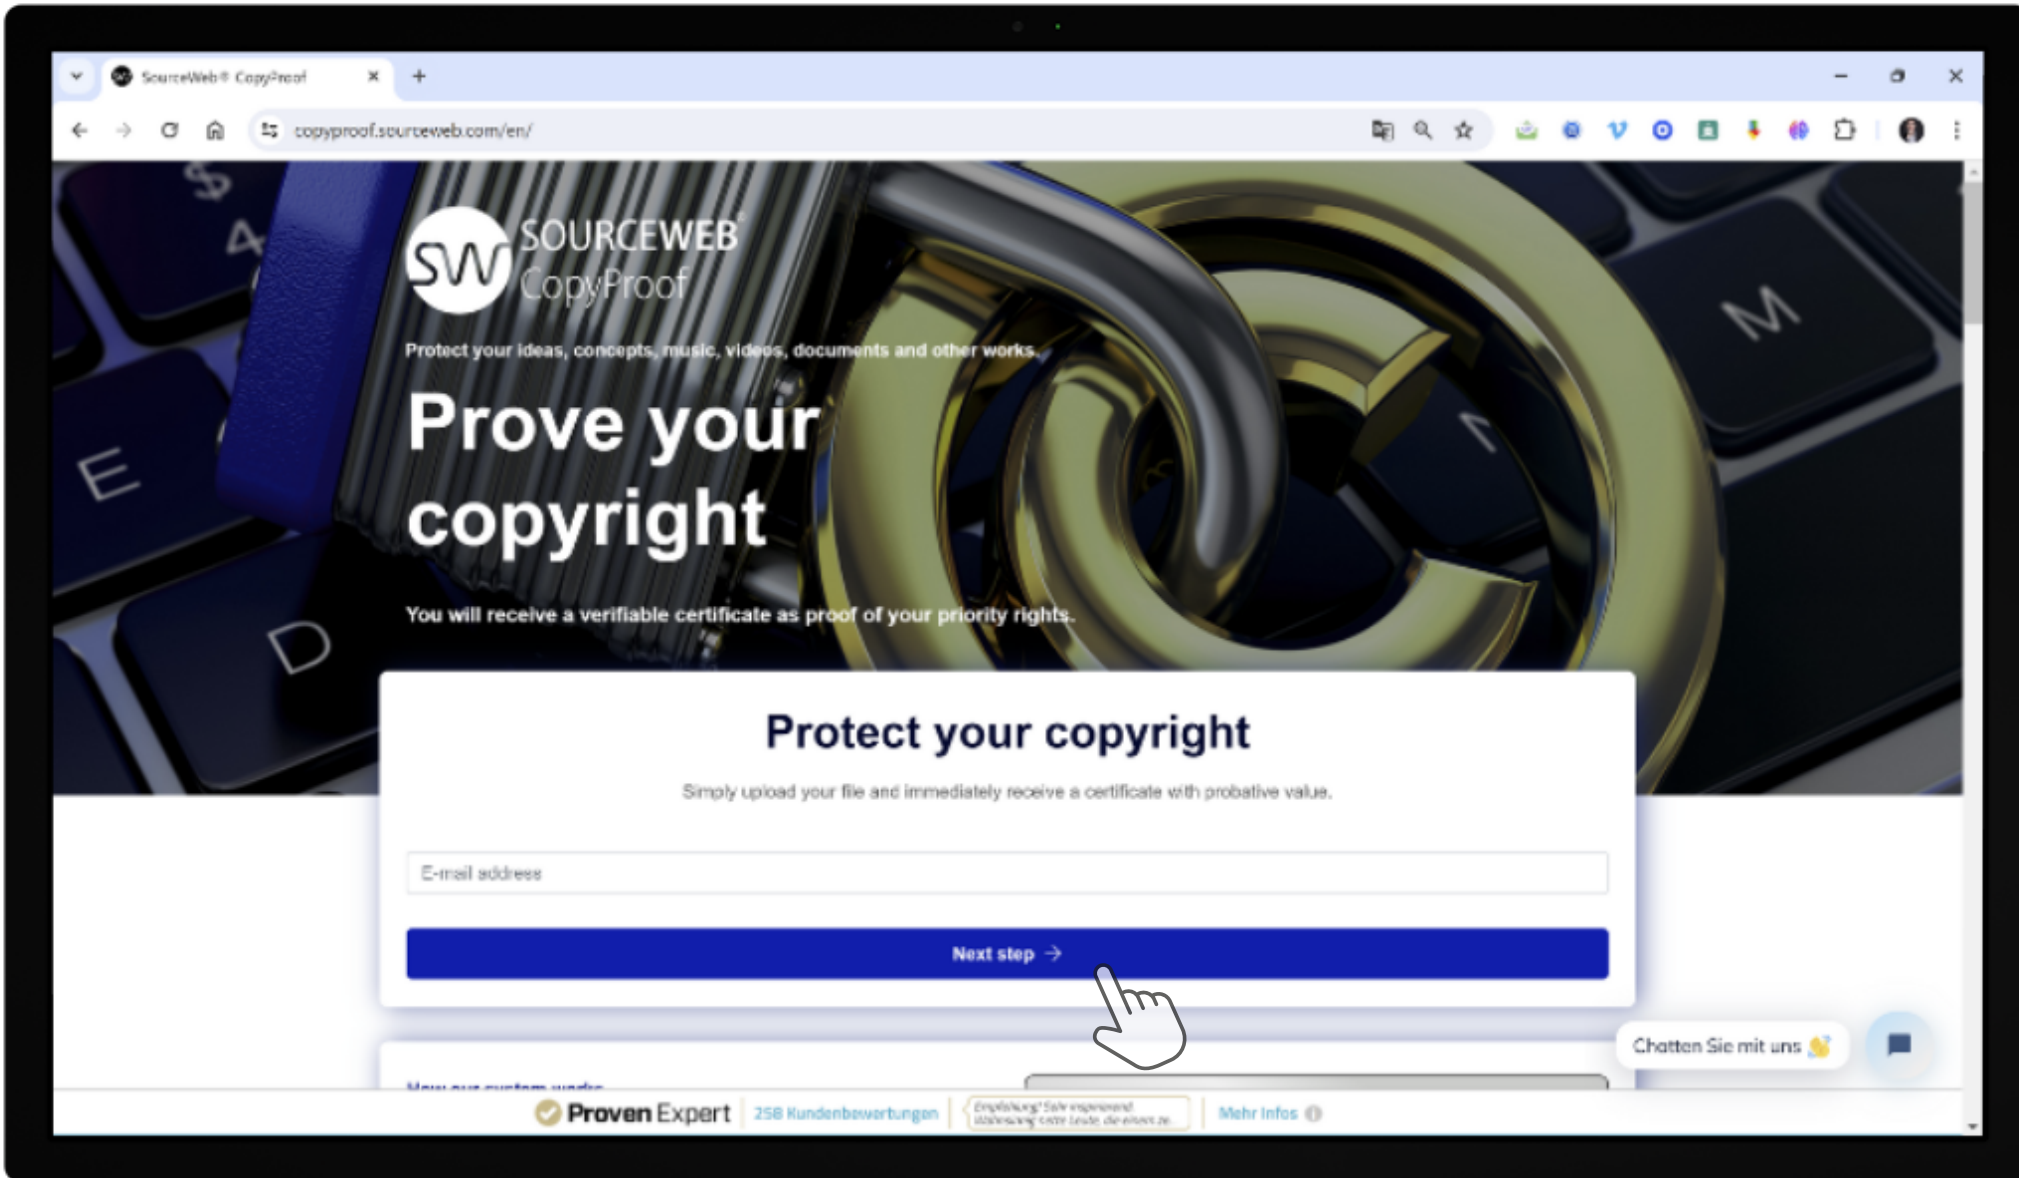

When you upload your file to SourceWeb CopyProof, it is given a unique digital fingerprint, known as a hash. This hash is then stored in a block in the blockchain, where it is permanently and transparently accessible. This creates immutable proof of the time and content of the file.

### The Advantages of SourceWeb CopyProof:

**Security:** Your files are stored in a secure and transparent way that prevents manipulation and falsifications.

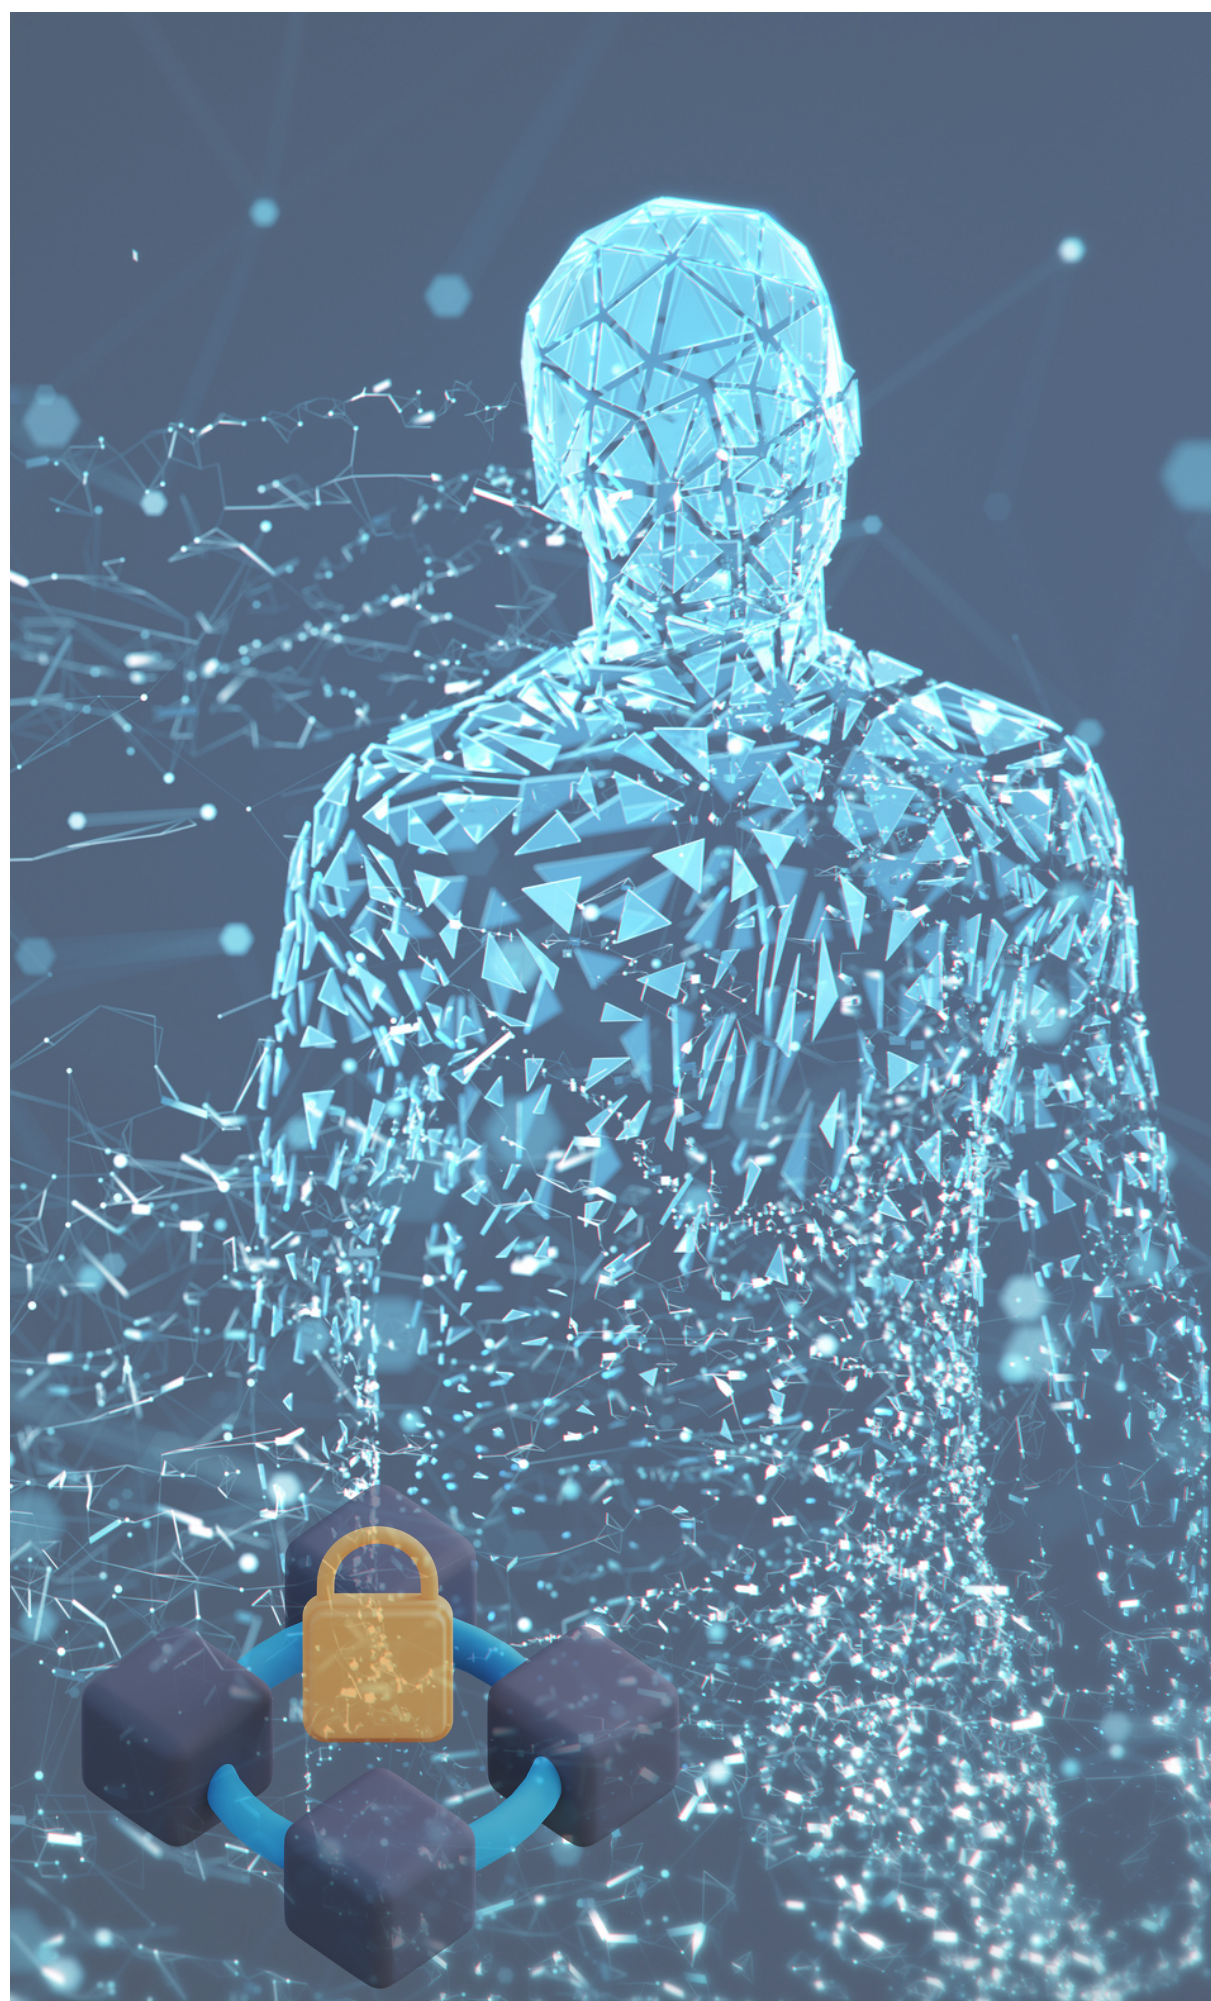

**Authenticity:** The use of blockchain technology guarantees the authenticity of your works and provides reliable proof of authorship and time of creation.

**Legal Certainty:** In the event of legal disputes or copyright infringements, SourceWeb CopyProof provides indisputable proof of your intellectual property rights.

### Conclusion

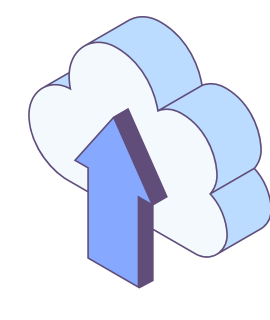

With SourceWeb CopyProof, you can be sure that your creative works are protected and authenticated. Take advantage of blockchain technology and secure your intellectual property rights with SourceWeb CopyProof.

Register today and start protecting your works!

### Step 1 - You are the Author of a Work

e.g. Documents, written Business Idea/Concept, Photographs, Program Code, Music Files, Videos, ...

### Step 2 - You upload the Work

This is done in just a few steps. The data is of course highly encrypted and securely transmitted and stored.

### Step 3 - You pay a small fee

Since we have to store your file securely for decades, this incurs server costs.

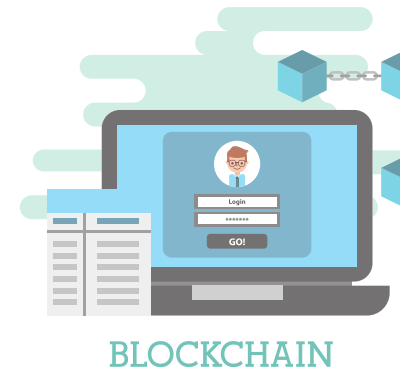

### Step 4 - You enter further Data on the Author

Optionally, you can specify to whom exactly the certificate is to be issued.

### Step 5 - You will receive a Certificate with a Verification Link

The certificate with verification link allows you to prove to anyone that you had the work at the time of upload.

### Storage in the Blockchain

The checksum and timestamp for your file are stored in a blockchain. This ensures that it cannot be falsified and is permanently secured.

If you have any questions, please do not hesitate to contact us.
