**IT Security**  
You need an  
IT Security Check  
on a Success Basis?  
We have the Solution.

TRUE TO THE MOTTO  
"TOGETHER WE ARE STRONG"

**YOU NEED AN IT SECURITY CHECK  
ON A SUCCESS BASIS?  
WE HAVE THE SOLUTION.**

### How does it work?

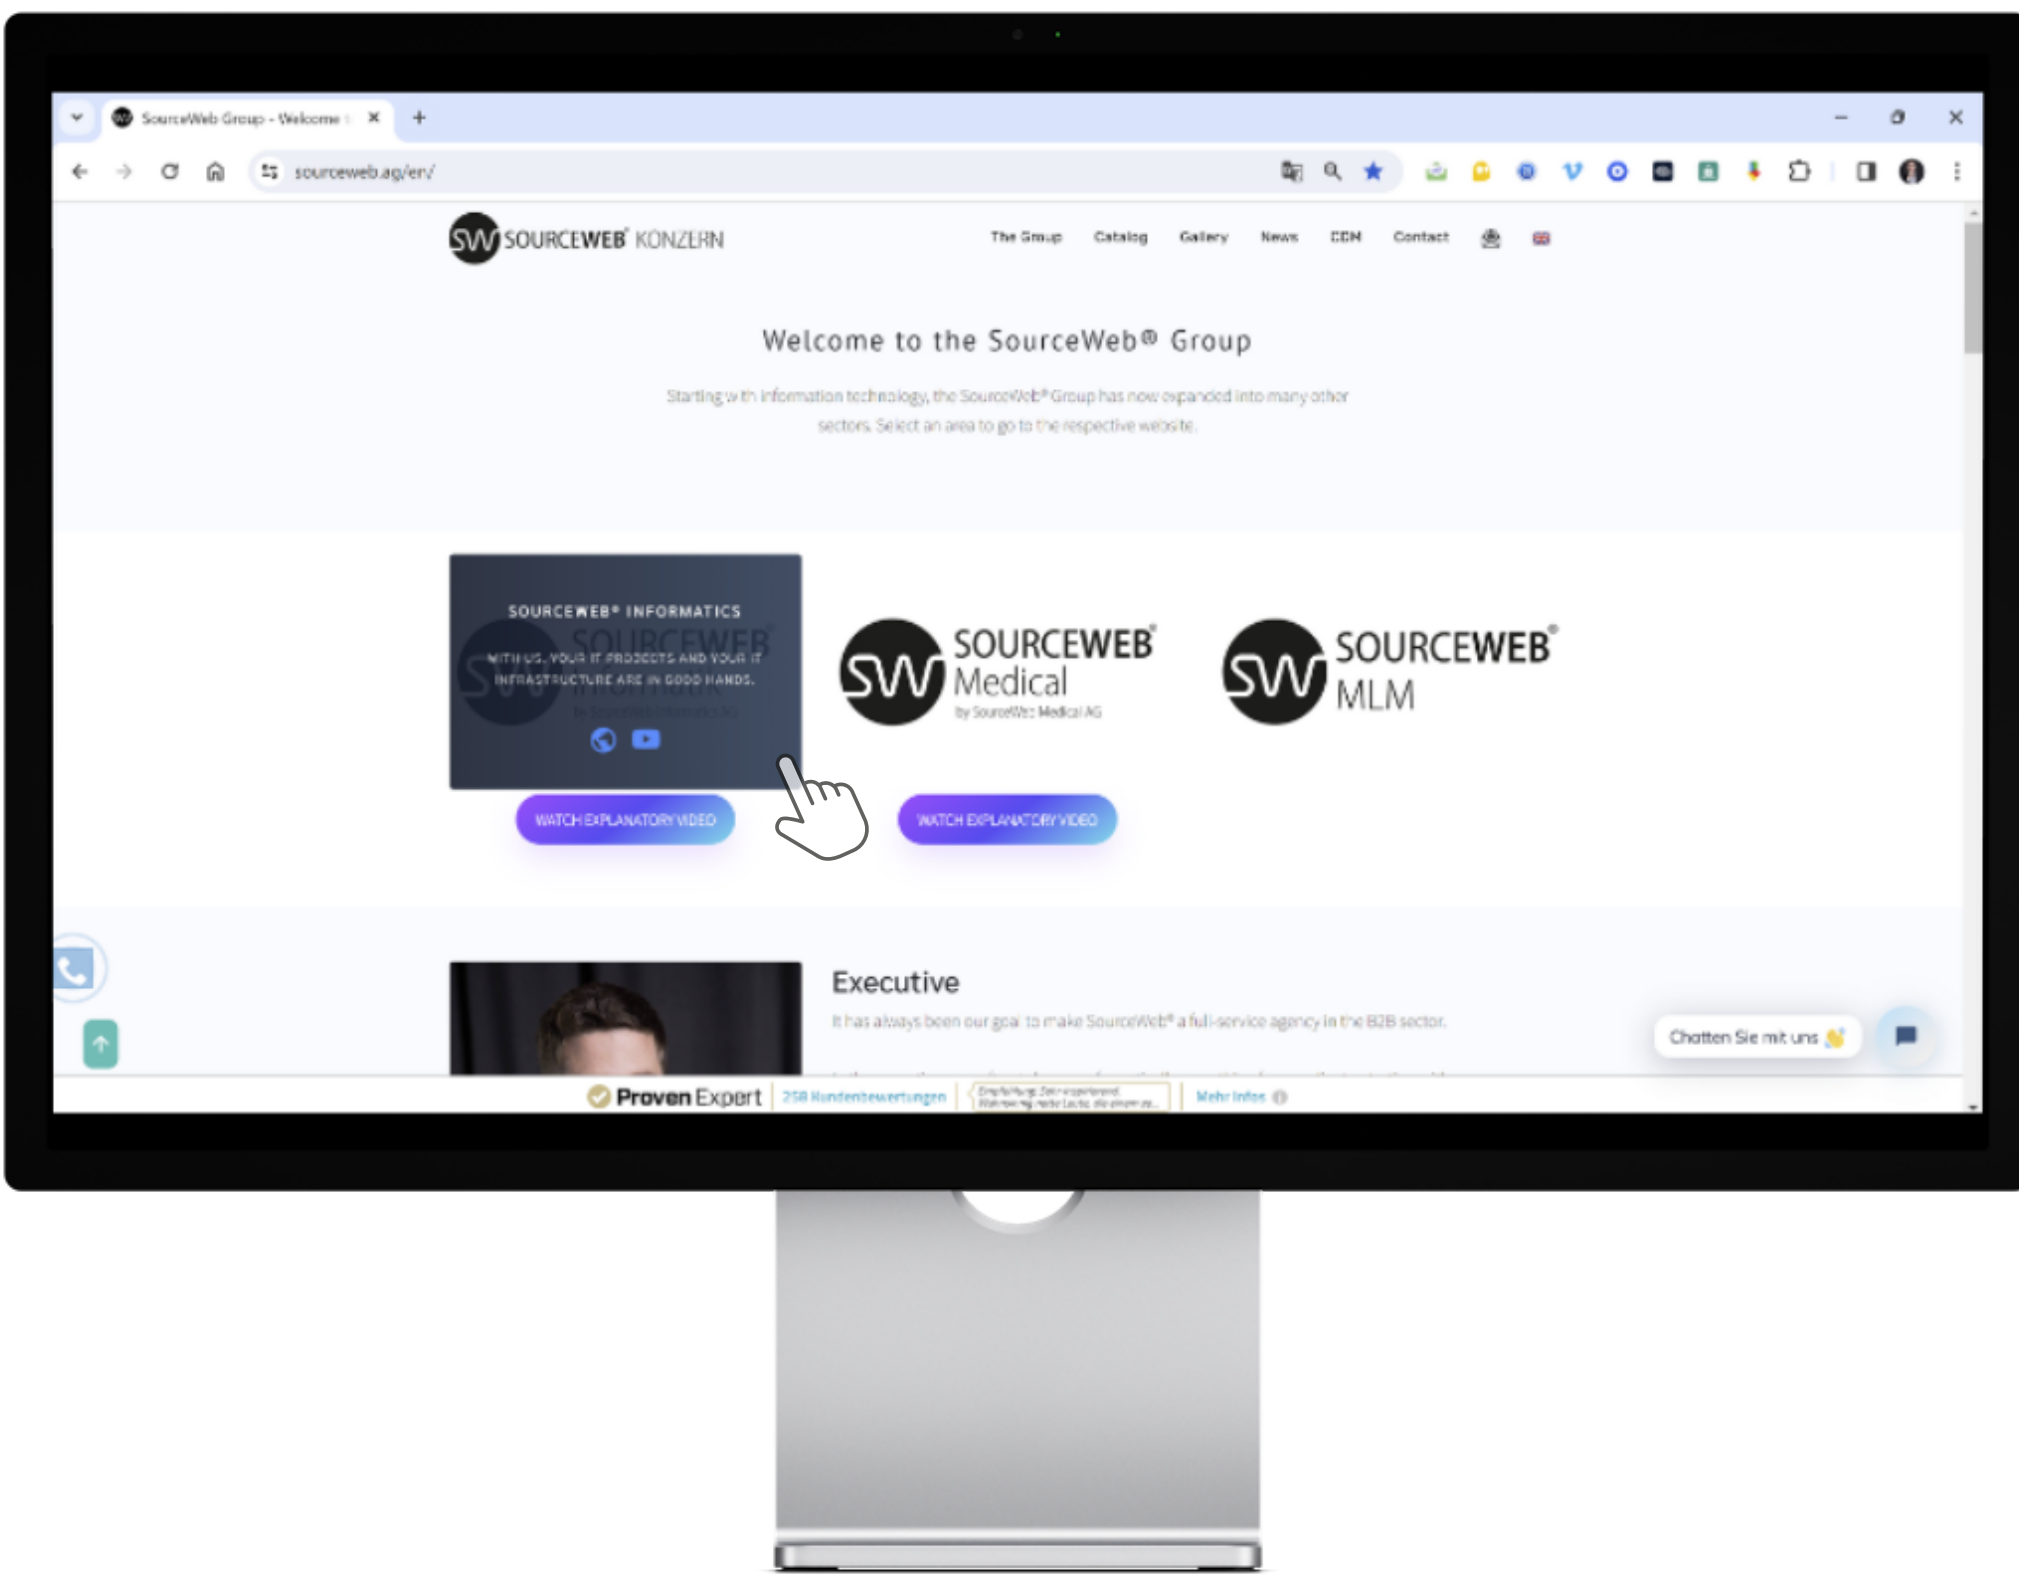

Imagine if a single security incident brought your entire business to a standstill. How would you deal with the financial impact, the loss of customer confidence and your reputation? Do you have detailed contingency plans in place? Can you be sure that your employees are always following the latest security guidelines? This is exactly where we come in as IT security consultants.

#### Alarming Incidents

According to the BSI, cyber security incidents in Germany have increased at an alarming rate. In 2023, over 14 million malware infections were registered at companies - more than double the previous year's figure. Smaller companies are particularly vulnerable as they are often less well equipped for IT security.

#### Continuous Training of our Employees

Our experienced team will analyze your existing security measures, identify vulnerabilities and develop a comprehensive strategy specifically tailored to your business needs. We use innovative technologies, training for your employees and continuous monitoring to ensure your business is protected around the clock.

#### Do you want to carry out an IT security check?

Planning and implementation of IT security checks for companies and authorities of all sizes. We operate nationwide and are happy to support you.

Make a non-binding inquiry now.

#### Step 1

In a free and non-binding consultation, we clarify the framework conditions and objectives of an IT security check. Our experts will help you determine the appropriate scope of the IT security check and provide an initial assessment of the security situation.

#### Step 2

Based on your requirements, we plan the implementation of the IT security check.

#### Step 3

Our experienced technical team will take a close look at your IT infrastructure and communication networks and uncover potential security risks. We go the extra mile to ensure you receive a comprehensive risk assessment to leading industry standards - leaving no stone unturned in our search for vulnerabilities.

#### Step 4

Once our checks and analyses have been completed, you will receive an IT security check report. This contains details of the findings, such as vulnerabilities and security risks. We make recommendations for measures that should be implemented to increase IT security. These are prioritized depending on their criticality.

#### Step 5

Our team of experts offers you a complete package for information security - from conception to implementation on a success basis. We do not leave you on your own. If you wish, we can support you in eliminating the findings and implementing the recommended measures.
